

Bolton School

SITE INFORMATION:

Student dining facility

DISTRIBUTOR:

JP Commercials

PROJECT DETAILS:

The aim of the project was to create an additional dining area for an extra 270 people, as part of a comprehensive catering facility upgrade. The complete upgrade took 11 weeks and was completed in September 2015.

Victor's role in the project was to provide symmetrical servery counters to accommodate high volume and two simultaneous queues.

COUNTER SPECIFICATION :

- Heated and refrigerated Synergy curved glass drop in units
- Silestone haiku range counter tops featuring inset trayslide runners
- LED illuminated stainless steel light pelmets
- Formica fundamentals sheer white counter fascia panels, stainless steel kick plinths.
