

City Buffet

SITE INFORMATION:

City centre - self service buffet restaurant

PROJECT DETAILS:

Replacement of existing counters to provide more effective and visually attractive servery counters. Customer requirement to keep operation running during change over meant installation had to be carefully planned. Back bar work and supplementary wall cladding also provided.

COUNTER SPECIFICATION

- Synergy wet well bain marie units, complimented by blown air wells and contact cooled surfaces.
- Ironbark Silestone counter top with 50mm deep square turn down.
- Formica 8853 rural oak frontage and interior
- Combination of fixed and mobile units
- Screen printed and LED illuminated glass panels
